SUMMARY

Software Engineer with over one and half year of experience in full-stack web development. I build fast websites and web apps using React.js, Laravel, JavaScript, and Tailwind CSS. Skilled at managing MySQL and Firebase databases. I enjoy solving real problems, creating easy-to-use applications, and learning new tools to improve my coding skills.

EXPERIENCE

Frontend Developer Intern

— (May 2025 – Oct 2025) —

Innovative Design | Kohat, Pakistan

Built fast, responsive web pages using React.js, HTML, CSS, and Tailwind CSS.

Converted UI/UX designs into clean, usable web interfaces.

Collaborated with team members to improve site layout and loading speeds.

KUST Incubation Centre (Digital Smart Cities Hub)

Full Stack Developer Intern / Developpe

— Nov 2025 – Jul 2026 —

Developed and deployed full-stack web applications, including the Digital Smart Cities Hub (DSCH Kohat) project.

Built full-stack features that connected frontend user interfaces with backend database systems.

Managed databases and created custom digital services to support city food and tourism systems.
